### LETTER OF TRANSMITTAL

DEPARTMENT OF THE INTERIOR,
OFFICE OF EDUCATION,
Washington, June, 1930.

SIR: The opportunity offered by colleges and universities for students who for any reason can not go to them is of interest to an ever-

increasing number of people.

The Office of Education, from time to time, has published bulletins regarding the growth of the enlargement of college campus boundaries and the progress made by institutions of higher learning to adapt their offerings to the needs of special students. As a result of a study made by Mr. L. R. Alderman, specialist in adult education, detailed information now has been compiled concerning 443 institutions which report that they offered some type of extension work for the years 1928–1929. Believing that this information will be of assistance to many persons who are anxious to further their education by study during leisure hours, I recommend that the material be published as a bulletin of the Office of Education.

Respectfully submitted.

WM. JOHN COOPER, Commissioner.

The SECRETARY OF THE INTERIOR.

## COLLEGE AND UNIVERSITY EXTENSION HELPS IN ADULT EDUCATION, 1928–1929

Colleges and universities during the past three decades have endeavored to extend their services to an ever-increasing number of persons beyond their walls. The history of this movement is most interesting and seems to have kept pace with improved means of transportation and communication. Strangely enough, university extension began about the same time that the automobile made its appearance.

The development of the radio is carrying the voice of the college instructor to all parts of the country. College lectures and study outlines now may be said to be within reach of the whole population.

Wherever the mails go university extension may be had, and where a sufficient number of persons in a community desire to study the same subject in all probability an instructor of some college or university may be found to guide them.

The purpose of this bulletin is to give information as to what helps may be had through extension methods from institutions of higher learning in all parts of this country. A similar bulletin published in 1928 gave evidence that many people desire the kind of information herein contained.

The data were secured by means of a questionnaire sent to 1,220 colleges, universities, and normal schools and from a study of their catalogues and reports. More than 800 institutions replied to the questionnaire, and 443 of these reported that they gave some extension service.

Work done by extension, either through correspondence study or in classes outside of the institution, may be credited toward a degree in many colleges and universities. The amount of credit that can be earned through extension work varies among institutions. In general, institutions that offer service of this nature permit one-fourth to one-half of the work necessary for a bachelor's degree to be earned by correspondence. There is a tendency to be more liberal in this regard toward class work taken outside of the institution.

Most colleges and universities record credit in terms of semester hours. A semester hour is commonly equivalent to 1 hour of class instruction per week for 18 weeks, including the periods taken for class organization at the beginning of the work and for examination at the close. In general, a semester hour means 16 actual class hours of instruction, exclusive of the periods devoted to organization and examination.

Many institutions offer through extension a great variety of work for which no credit is granted. This may be because no credit is desired or because the subject matter is not of college grade.

The-cost to the student of correspondence or class work outside of institutions varies among the colleges and universities. However, the student will find that as a rule the fees do not more than cover the cost of service, supplies, and postage.

The reader who desires help from any college or university will find the types of extension education services rendered by schools listed in Table 1. To secure full information or to enroll for any particular service, one should write directly to the institution.

## Correspondence Study Courses

More than 200 subjects, through correspondence, are offered by 150 colleges and universities. Probably more than 150,000 persons are taking these courses. Some of the outstanding advantages of study by correspondence are:

(1) The student may advance as rapidly as time, ability, and industry will warrant. No time is wasted in waiting for others.

• (2) As all lessons are written, the student has ample opportunity for practice in written expression.

(3) A much wider range of subjects is available to the student than through class work outside of the institution, as the latter necessitates finding a group of people who desire to study the same subjects at the same time.

In the modern university correspondence courses the assignments are clearly made and the difficulties carefully explained. The criticisms by the instructor, after reading the papers submitted by students, are usually very definite and helpful.

Of the 149 institutions reporting correspondence courses, 111 report that they render such service to persons residing anywhere; 18 report that their correspondence service is restricted to persons who reside within the State where the institution is located.

The information contained in the following paragraphs will give an idea of the wealth of the subjects offered by correspondence.

## SUBJECTS GIVEN THROUGH CORRESPONDENCE

[Locations of institutions may be found on pages 3-17. An asterisk (\*) following a paragraph indicates that all subjects in the paragraph are on high-school level; an (\*) following a paragraph indicates that all subjects in the paragraph are on graduate level; a circle (°) following a paragraph indicates that all subjects in the paragraph are offered by radio. Subjects in unmarked paragraphs are on college level.]

#### ALABAMA

Alabama Polytechnic Institute.—Accounting, bookkeeping, economics, education, English, foreign languages, history, home economics, mathematics, physics, religious education.

Alabama College.—Art, education, history, home economics, interior decoration, music, physical education, psychology, religious education, sociology.

University of Alabama.—Accounting, biology, chemistry, economics, education, English, geography, history, home economics, languages, mathematics, music, philosophy, political science, psychology, sociology.

#### ARIZONA:

Arizona State Teachers College.—Commerce, education, English, history, home economics, languages, mathematics, political science, science, sociology.

Phoenix Union High School (Junior College).—All high-school subjects,\* except those requiring laboratory work, and industrial work.

University of Arizona.—Agriculture, astronomy, economics, education, electrical engineering, English, geology, history and political science, home economics, music, philosophy, psychology.

#### ARKANSAS:

Arkansas State Teachers College. - High-school subjects.\*

Agriculture, biology, drawing, education, English, geography, history, mathematics, mechanical drawing, sciences, social science.

University of Arkansas.—High-school subjects.\*

Civil engineering, drawing, economics, educational administration, elementary education, secondary education, educational principles, electrical engineering, English, French, German, history, home economics, horticulture, Italian, journalism, Latin, mathematics, mechanical engineering, music, philosophy, political science, psychology, rural economics and sociology, sociology, Spanish, zoology.

State Agricultural and Mechanical College.—English, history, methematics, pedagogy, science, sociology.

#### CALIFORNIA:

University of California. More than 200 subjects under the following general topics: Accounting, art, astronomy, automobile study, bookkeeping, chemistry civil engineering, civics, commercial law, economics, education, electrical engineering, English composition, English literature, freehand drawing, French, geography, German, Greek, history, hydraulics, instrumental drawing, Italian, Latin, law, mathematics, mineralogy, mechanical drawing, mechanics, music, parliamentary law, philosophy, physics, political science, radio, retail-store management, Russian, Spanish, surveying, stenography, thermodynamics, typewriting, zoology.

University of Southern California: - Business law, real estate.

Short-story writing, studies in modern American literature, business law.° Semicentennial series on contemporary civilization.°

#### COLORADO:

Colorado State Teachers College.—Fological sciences, chemistry, commercial education, educational psychology, foreign languages, geography, history, home economics, literature and English, mathematics, music, physics, physiography and geology, political science, sociology.

Western State College.—Biology, chemistry, education, English, foreign languages, geography, history and political science, household arts, industrial arts,

mathematics, music, physics.

University of Colorado.—Courses in the college of arts and sciences, college of education, college of engineering, college of music, school of business administration.

#### DISTRICT OF COLUMBIA:

Gallaudet College. - Education.

#### FLORIDA:

University of Florida.—Agriculture, commercial subjects, English, French, history, Latin, mathematics, Spanish.

Agriculture, art, business administration, chemistry, economics, education, English, French, German, history, journalism, mathematics, sociology, Spanish. Georgia:

Americus Normal College.—College algebra, composition and rhetoric, history of English literature, introduction to education, tests and measurements.

Georgia State College for Men .- Algebra, English, history.\*

Education, English, history, psychology.

South Georgia Training College.—American history, civics, economics, literature and life.\*

Child psychology, classroom management, development of the novel, English, history, history of education, moral and ethical education, rural school problems, sociology, tests and measurements, trigonometry.

University of Georgia.—Many subjects given under the following general topics: Commerce, education, English, history, journalism, Latin, mathematics, philosophy, sociology, Spanish.

112228-80-4

#### ILLINOIS:

Bradley Polytechnic Institute.-Art, business administration, drafting, economics, education, English, history, home economics, library, mathematics, political science, sociology, woodworking.

Illinois State Normal University .- American history, economics, education, geography, grammar, history, methods, Shakespeare, language, literary types, methods of teaching, science of discourse.

Mount Morris College. - Education, history, religion.

Rosary College.—English composition, mathematics, medieval history.

University of Chicago. - More than 200 subjects in correspondence are given under the following general topics:

Accounting, drawing, English, French, German, history, Latin, mathematics, physics, physiography, Spanish.\*

Anthropology, art, astronomy, botany, chemistry, Christian theology and ethics, church history, commerce and administration, comparative literature, comparative religions, education, English language and literature, geology and paleontology, Germanic language and literature, Greek language and literature, history, hygiene and bacteriology, Latin language and literature, library science, mathematics, New Testament and early Christian literature, oriental languages and literature, pharmscology, physics, political science, preaching and parish ministry, religious education, Romance languages and literature, social service administration, sociology.

University of Illinois. - Several subjects in correspondence are given under the general topics as follows: Agriculture, ceramic engineering, home economics.

#### INDIANA:

Indiana State Teachers College. - Commerce, education, foreign languages, grammar grade courses, industrial arts, mathematics, music, primary courses, science, social studies.

Indiana University.—Commercial subjects, English, French, German, history and civics, Latin, mathematics, science, Spanish.

Astronomy, commerce, comparative philology, economics and sociology, education, English, fine arts, geology, German, history, home economics, hygiene, journalism, Latin, mathematics, music, physical education, physiology, political science, psychology and philosophy, probation officer work, radio, Romance languages, rural education.

Oakland City College. - Education, English, home economics, mathematics, social studies.

#### IOWA:

Iowa State College.—Art, commercial education, education, English, German, government, history, home economics, mathematics, rural education.

Parsons College.—Agriculture, business English, classical languages, English, history, home economics, mechanical drawing, modern languages, mathematics.

Upper Iowa University.—American history, history of education, literary

masterpieces, religious education, school management.

University of Iowa .- Botany, chemistry, child welfare, economics and commerce, English, German, Greek, history, journalism, Latin, mathematics, music, mechanical drawing, philosophy and psychology, physical education, political science, Romance languages, sociology.

#### KANBAS:

Hession College and Bible School.—Algebra, American history, Bible history, biblical geography, English, German, Latin, Spanish.\*

Synthetic Bible study.

Kansas State Agricultural College.—Agriculture, drawing, economics, English history and civics, home economics, mathematics, science.\*

Agriculture, home economics, engineering, general science.

Kansas State Teachers College (Emporia).—Agriculture, commerce, English, geography, history and civics, Latin, mathematics, physics, physiology, psychology.\*

Art, administration, agriculture, biology, commerce, English, geography, health education, history and government, kindergarten-primary education, Latin, manual arts, mathematics, modern languages, physics, psychology, sociology and economics.

Kansas State Teachers College (Hays) .- Electives, English, mathematics.\*

Agriculture, applied art, biological sciences, business administration, education, English, history and social sciences, home economics, Latin, mathematics, mechanic arts, music, philosophy.

Tabor College.—Algebra, English, general sciences, history, physiography, psychology.\*

University of Kansas.—Civics, English, French, German, history, Latin, mathematics.\*

Astronomy, bacteriology, chemistry, economics, education, engineering, English, entomology, geology, German, history, home economics, journalism, Latin, mathematics, music, philosophy, physical education, physics, physiology, political science, Romance languages, sociology, Spanish.

#### KENTUCKY:

Murray State Teachers College.—Agriculture, education, English, geography, history, mathematics, science.\*

Agriculture, art, education, English, French, geography, history, Latin, mathematics.

Simmons University. - English, general biology, history.\*

Education, English, history, political sciences, psychology.

Sue Bennett Memorial College. - Economics, education.

University of Kentucky.—Civics, English, German, history, Latin, mathematics, rural school management, science.\*

Botany, commerce, education, English, geology, German, Greek, history, hygiene, journalism, mathematics, mining, music, political science, Romance languages.

#### LOUISIANA:

Louisiana Polytechnic Institute.—Agriculture, commerce, education, English, French, history, home economics, hygiene and sanitation, Latin, Spanish.

Louisiana State University. -- Algebra, geometry.\*

Agriculture, astronomy, botany, comparative literature, economics, education, English, engineering, entomology, farm mechanics, French, geology, German, government, history, journalism, Latin, mathematics, music, physics, poultry husbandry, psychology, Romance languages, sociology, Spanish, zoology.

Southwestern Louisiana Institute.—Agriculture, art, business education, commercial education, French, geography, history and political science, home economics, Latin, physics, psychology of education, Spanish.

Louisiana State Normal College.—Biology, education, English, French, history, Latin, mathematics, political science, social sciences, sociology, Spanish.

#### MASSACHUSETTS:

Clark University.—Courses in teaching economic geography.

Massachusetts Agricultural College.—Apple growing, commercial floriculture, farm management and accounts, home flower gardening, poultry husbandry (six courses), soils and soil fertility.

State Normal School (North Adams).—American history, arithmetic, civics, educational psychology, geography, grammar, history of education, hygiene, language, literature, nature study, rural school management, sewing.

The Division of University Extension of the Massachusetts State Department of Education offers work in 175 subjects included in the following general topics: Civil service, commercial and management, drawing, economics, education, electrical engineering, history and government, highway and hydraulic textiles, home making and art, languages, mathematics, mechanical engineering, natural science, review courses for college examinations, special industrial courses, structural courses.

#### MICHIGAN:

Central State Teachers College.—A large variety of subjects, all on college level, may be taken by correspondence.

Michigan State Normal College (Ypsilanti).—Chemistry, education, English, fine arts, geography, history and social sciences, home economics, industrial arts, Latin, mathematics, modern languages, mythology, natural sciences, penmanship, and physical education.

#### MINNESOTA:

State Teachers College (St. Cloud).—The curriculum, individual differences. University of Minnesota.—English and mathematics.\*

Art, astronomy, business, child welfare, economics, education, engineering, English, Esperanto, geology, German, Greek, history, hygiene, interior decorating, journalism, Latin, library training, mathematics, music, personnel administration, physics, political science, psychology, Romance languages, Scandinavian, social science, sociology.

#### MISSISSIPPI:

University of Mississippi.—Bible, botany, chemistry, commerce, economics, education, English, geology, Greek, history, home economics, Latin, mathematics, philosophy and ethics, physics and astronomy, political science, sociology, Spanish, speech.

#### MISSOURI:

Northeast Missouri State Teachers College.—Commerce, education, health and physical education, language and literature, social sciences.

Qzark Wesleyan College.—Education, educational psychology, English literature, modern drama, physical education and hygiene, public-school music methods, secondary education.

Southeast Missouri State Teachers College.—Agriculture, business, commerce, English, geography, history, languages, mathematics, music, science.\*

Agriculture, education, English, history, music.

Southwest Missouri State Teachers College.—Agriculture, art, commerce, education, English, foreign languages, history, home economics, mathematics, science, speech.

University of Missouri.—Agriculture, algebra, economics, English, geometry, German, history, Latin, trigonometry.\*

Agriculture, Bible, education, English, French, German, history, home economics, horticulture, mathematics, physics, physical education, political science, Romance languages, rural sociology, sociology, Spanish, zoology.

#### MONTANA:

Intermountain Union College. - Education, history, sociology.

State University of Montana.—Biology, business administration, economics and sociology, education, English, foreign languages, history and political sicence, home economics, Latin, mathematics, music, psychology.

Montana State Normal College.—Agriculture, American government, American history, economics, education, educational psychology, geography, history, literature, mathematics, principles of education, school management, tests and measurements.

#### NEBRASKA:

Midland College.—Algebra, astronomy, education, English, geometry, hygiene, religious education, Spanish.

Nebraska Wesleyan University.—Applied sociology, education for citizenship, educational and vocational guidance, history of education, introduction to ethics, literature of New and Old Testament, National Government, twentieth-century schools.

Noncollegiate courses offered but not for credit.°

Peru State Teachers College.—Art, biology, commerce, economics, English, education and psychology, geography, history, hygiene, manual arts, mathematics.

University of Nebraska.—Agriculture, ancient languages, business management, chemistry, commercial arts, economics, education, engineering, English, fine arts, geography, geology, history, home economics, philosophy, physical education, political science, Romance languages, sociology, zoology.

#### NEW JERSEY:

Rutgers University.—Business economics, business English, civics, English, history, mathematics, mechanical drawing, plan drawing, shop trigonometry.\*

Business law, elements of electricity, elements of structure, engineering, German, interior decoration, literature, mathematical advertising, practical mechanics, public speaking, retail selling, Spanish.

#### NEW MEXICO:

New Mexico State Teachers College.—Civics, English, history, mathematics, Spanish.\*

Art, civics, education, English, history, literature, mathematics, home economics, political science, social science.

University of New Mexico.—Anthropology, civil engineering, economics, education, English, geology, history, mathematics, psychology, Spanish.

#### NEW YORK:

Columbia University .- Subjects in the 4-year high-school course.\*

. Accounting, actuarial mathematics, agriculture, algebra, American government, American history, American literature, applied grammar, astronomy, banking, Biblical literature, biology, bookkeeping, botany, boy scouting, budgets, business administration, business English, business law, business mathmatics, business organization, calculus, chemistry, child psychology, children's literature, Christianity (history of), classics, community organizations, composition (dramatic, elementary English, college French, Italian, Latin prose, lyric poetry, public speech, Spanish), contemporary novel, cost accounting, descriptive geometry, drafting, drama, drawing and painting, economics, economic geography, economic history of the United States, English, English literature, essay writing, European history, finance, French, geometry, German, government, grammar, Greek, harmony, history (American Christian Church, European), investments, Italian, juvenile story writing, Latin, library science, literature (American, Biblical, classical, comparative, contemporary, English, French, Greek, Italian, juvenile, Latin, Spanish), magazine article writing, manufactured gas, marketing, mathematics, mechanical drawing, personnel administration, philosophy, photoplay composition, physics, poetry, politics, Portuguese, psychology, psychology in business, psychology of childhood, public health, public speaking, religion, Romance languages, secretarial studies, shortstory writing, slide rule, sociology, Spanish, structural drafting, typewriting, world literature.

Keuka College.—Bible study.

Education, history.

New York State College of Agriculture.—Agriculture, home making, rural schools.

#### NORTH CAROLINA:

North Carolina State College of Agriculture and Engineering.—Agriculture, economics, education, English, engineering, history, mathematics, modern languages, sociology.

University of North Carolina.—Commerce, economics, education, English, geology, Germanic languages, history and government, journalism, Latin, mathematics, music, philosophy, psychology, public welfare, Romance languages, rural social science.

Weaver College. - Administration of religious education, college grammar.

Western Carolina Teachers College.—American history, educational psychology, English literature, juvenile literature, principles of geography, rural-school problems, school hygiene, theory of play.

#### NORTH DAKOTA:

North Dakota Agricultural College.—Business subjects in regular high-school courses, practical farming.\*

Community programs, floriculture, teachers' agriculture, teaching methods.

State Normal and Industrial School.—Ancient history, modern history, sociology.\*

Agriculture, American history, economics, hygiene and sanitation, psychology, sociology.

State Teachers College (Mayville).—Art, commerce, education, English, history, languages, psychology, rural education, sciences, social sciences.

State Teachers College (Valley City).—Agriculture, educational psychology, English, foreign languages, history, physical education, social science.

State Teachers College (Minot).—Any course given in residence by the college (when requested by a sufficient number).

University of North Dakota.—Commercial courses, English, foreign languages, mathematics, science, social science.

#### Оню:

Ohio University.—Agriculture, art, biology, chemistry, civil engineering, commerce, economics, education, English, geography, geology, history, home economics, industrial education, kindergarten education, music, philosophy, physical education, physics and electrical engineering, political science, psychology, sociology.

St. John's University.—Algebra, American history, civics, commerce, English, general history, geometry, Latin.\*

American history, current literature, educational tests, English composition, history of education.

St. Xavier College.—Latin, six courses.

#### OKLAHOMA:

Catholic College of Oklahoma.—Agriculture, ancient history, English, English history, modern history.

Central State Teachers College.—Courses on college level.

East Central State Teachers College.—Biology, English, history, mathematics.\* Agriculture, art, economics, education, English, foreign languages, history, home economics, manual arts, mathematics, sociology.

Northeastern State Teachers College.—Agriculture, art, business education, education, English, history and government, home economics, industrial arts, Latin, mathematics, modern foreign languages, music, physical science, psychology, religious education, sociology and economics.

Oklahoma Agricultural and Mechanical College.—Agriculture, economics, Eng-

Agriculture, commerce, education, engineering, home economics, science and literature.

University of Oklahoma.—Agriculture, bookkeeping, English, French, government, history, Latin, mathematics, shorthand, typing.\*

Accounting, agriculture, astronomy, bookkeeping, business law, education, English, engineering, fine arts, geography, government, Greek, home economics, Latin, literature, mathematics.

#### OREGON:

University of Oregon.—Biology totany, drawing, economics, education, English and literature, geology, health education, history, mathematics, modern languages, physics, physiology, psychology, sociology.

#### PENNSYLVANIA:

Messiah Bible College.—Bible course, bookkeeping, economics, education, English literature, ethics, history, home nursing, missions, penmanship, psychology typing.

Pennsylvania State College.—Agriculture, ceramics, economics, education, English, geography, geology, German, history, home economics, Latin, mathematics, nature education, philosophy, psychology, public-school art, Romance languages, rural education, zoology.

#### SOUTH DAKOTA:

Eastern State Teachers College.—Education and training, elementary education, English language and literature, foreign language, mathematics, secondary education, social science.

Northern Normal and Industrial School.—English language and literature, history, Latin, shorthand and typewriting.\*

Commerce, education, English language and literature, geography, German, history, hygiene, Latin, physiology, psychology, sociology.

Siodx Falls College.—Education, English, languages, mathematics, psychology, science, social science.

Southern State Normal School. - Education, English, history, languages, mathematics.

University of South Dakota.—Arts and sciences, business administration, education, music.

#### TENNESSEE:

Bethel College.—Bible, dramatic art, economics, elementary education, government, history of education, Latin, music, principles of education, psychology, recent European history, romanticism, sociology.

Lane College .- Education, English, religion.

University of Tennessee .- Practically all secondary-school subjects.\*

Accounting, agricultural economics, business finance, business law, economics, education, English, factory management, French, geography, history, home economics, hygiene, industrial education, machine design, marketing, mathematics, mechanical drawing, mechanics, philosophy, psychology, sociology, Spanish, transportation. Vocational courses, including agriculture, drawing, English, electrical engineering, heating and ventilating engineering, mathematics, mechanical engineering, refrigeration engineering, steam engineering.

#### TEXAS:

Abilene Christian College.—Bible, economics, education, English, geography, history, home economics, Latin, mathematics, psychology, sociology, Spanish.

Baylor College for Women.—Education, English, French, German, Greek, Latin, mathematics, music, political economy, psychology, religious education, Spanish.

Howard Payne College.—Biblical literature, economics, education, English, French, government, mathematics, sociology, Spanish.

Sam Houston State Teachers College:—Agriculture, biology, business administration, education, English, French, geography, history, mathematics, Spanish. Simmons University.—Education, English, history, psychology.

Southwestern University.—Bible and religion, education, English, French, geology, German, history, Latin, mathematics, philosophy and psychology, physics, sociology and economics, Spanish.

Sul Ross State Teachers College.—Commerce, education, English, French, geography, government, industrial education, mathematics, Spanish.

Texas College of Arts and Industries.—Economics, education, English, French, geography, history, Latin, mathematics, sociology, Spanish.

Texas Technological College.—All subjects given in residence in high-school\* courses except laboratory science.

Agriculture, biology, chemistry, economic and business administration, education, English, French, German, government, history, home economics, Latin, mathematics, music, physics, Spanish.

Texas Woman's College.—Bible, biology, education, English, history, mathematics, Romance languages.

University of Texas.—Algebra, American literature, bookkeeping, business administration, English history, English literature, Esperanto, geometry, history, journalism, trigonometry.\*

Anthropology, applied mathematics, Bible, business administration, economics, education, engineering, English, French, geology, German, government, Greek, history, Italian, journalism, Latin, philosophy, physics, psychology, public speaking, pure mathematics, sociology, Spanish.

West Texas State Teachers College.—English, history, mathematics.\*

Agriculture, art, biology, chemistry, commerce, economics and government, education, English, geography, German, history, home economics, Latin, mathematics, music, physics, physical education.

#### UTAH:

Agricultural College of Utah .- High-school courses.\*

Agriculture, education, English, entomology, geology, history, home economics, horticulture, irrigation and drainage, mechanic arts, modern psychology, public health and bacteriology.

Dixie College.—Algebra, American history, domestic art, English literature, general literature, geometry.\*

American literature, educational administration, educational psychology. University of Utah.—Biology, English, history and civics, mathematics.\*

Architecture, art, aviation, botany, business chemistry, economics, education, English, engineering, geology, history, home economics, modern languages, music, philosophy, physical education, political sciences, sociology, speech, western history.

#### VIRGINIA:

Radford State Teachers College.—Several professional courses carrying college credit offered when requested.

University of Virginia.—Economics, education, English, government, mathematics, psychology, sociology.

#### WASHINGTON:

Bellingham State Normal School.—American history, English geography, home economics, industrial arts, science, social science, typewriting.

State College of Washington.—Economic science, education, English, foreign languages, hygiene, manual arts, mathematics, physics, politics, psychology, secretarial science, sociology.

#### WEST VIRGINIA:

Alderson Junior College.—American history, educational psychology, freshman English, history, introduction to education, methods in history.

Concord State Teachers College.—Agriculture, economics, education, English, geography, geology, history, political science, sanitation, sociology.

Fairmont State Normal School.—Education, English, history, Latin, mathematics, science, sociology.

Glenville State Normal School.—Economic zoology, educational psychology, English, human geography, personal hygiene, technique of teaching, United States history.

Marshall College.—Commerce, education, geography, history, Latin, physical education, Spanish.\*

New River State School .- Agriculture, economics, English, history, mathematics.\*

Shepherd College State Normal School.—Child psychology, educational psychology, English literature, general agriculture, geography, health and hygiene, rural education.

Storer College. Teacher-training courses, vocational agricultural courses.

West Liberty State Normal School.—Art, education, geography, health education, home economics, literature, mathematics, psychology, school management, short story, sociology.

West Virginia State College.—Introduction to teaching, principles of teaching, tests and measurements.

West Virginia University.—Anthropology, astronomy, botany, business education, chemistry, drama, economics, education, engineering, English language and literature, history, home economics, hygiene of maternity and infancy, journalism, mathematics, music, navigation, nursing, political science, psychology, Romanic language and literature, Scandinavian language and literature, sociology and literature.

#### WISCONSIN:

State Teachers College (Milwaukee) .- Algebra I and II.\*

Agriculture, American history, American poets, economics, education, English, investigations in teaching arithmetic, history and reading, kindergarten-first grade curriculum, mathematics, organization of primary school, philosophy of education, political science, rural economics and sociology.

University of Wisconsin.—More than 400 subjects under the following general topics: Astronomy, botany, business, chemistry, drawing (mechanical), economics, education, engineering, English and comparative diterature, French, general science, geology and geography, German, Greek, health, Hebrew, history, home economics, industrial arts, Italian, Latin, library methods, mathematics, mechanic meteorology, music, pharmacy, philosophy, physical education, physics, play and recreation, political economy, political science, psychology, publicity, pulp and paper manufacture, railway engineering, roads and pavements, sociology, Spanish, speech, surveying, teachers' review courses.

Bookkeeping, chemistry, English, French, general science, German, Greek, history, Italian, Latin, library methods, mathematics, physics.\*

#### WYOMING:

University of Wyoming.—Agriculture, botany, commerce, education, English, history, home economics, mathematics, modern languages, political economy, political science, psychology.

Commercial, English, Latin, mathematics, social science.\*

## Class Work Outside of Institutions

In nearly every State of the Union institutions of higher learning give class work outside of their own walls. During 1928-29, 291 colleges and universities offered such classes, which were attended by more than 250,000 students.

An individual desiring to take work in one of these extension classes should discover through his local public-school department or through the public library what courses are given in that vicinity. If there are no such classes, he should ask the college or university of his choice to organize such a class and furnish an instructor, and it is likely that this will be done, provided a group of 10 or more persons can be found who desire to study the same subject.

Some of the strong points of extension work by means of classes are as follows: (1) The personal guidance and help of the instructor; (2) the advantages resulting from group discussion; (3) the opportunity offered for practice in self-expression and the art of conversation; (4) advantages of a definite class period.

The following tabulation indicates the nature of the subjects available through class work outside of institutions:

## SUBJECTS OFFERED THROUGH CLASS WORK OUTSIDE OF INSTITUTIONS

[Locations of institutions may be found on pages 3-17. An asterisk (\*) following a paragraph indicates that all subjects in the paragraph are on high-school level; an (\*) following a paragraph indicates that all subjects in the paragraph are on graduate level; a circle (\*) following a paragraph indicates that all subjects in the paragraph are offered by radio. Subjects in unmarked paragraphs are on college level.]

## ALABAMA:

Alabama College.—Art, biology, education, English, history, Latin, French, psychology, religious education, sociology, Spanish.

Alabama Polytechnic Institute.—English, history and political science, industrial arts, professional methods, psychology, sociology.

Birmingham-Southern College.—Aeronautics, art, biology, business education, chemistry, dramatics, economics, English, French, history, journalism, landscape architecture, library science, music, psychology, religious education, sociology.

Judson College. - American literature, economics.

State Normal School.—Any course offered in residence.

State Teachers College (Jacksonville).—Education, English, fine arts, health and physical education, history and civics, languages, mathematics, penmanship, practical arts.

State Teachers College (Troy).—Education, English, fine arts, history and civics, mathematics, science, physical education.

Tuskegee Normal and Industrial Institute.—Animal husbandry, dairying, farm crops, home economics, poultry, English.

University of Alabama.—Education, English, French, history, home conomics, journalism, mathematics, philosophy and religion, physics, psychology, radio, sociology, Spanish.

Woman's College of Alabama.—American literature, biology, English, literature, Spanish.

## ARIZONA:

Arizona State Teachers College.—Courses for which there is a demand.

Gila College.-Adolescent psychology; sociology of home and family.

Phoenix Union High School and Junior College.—Any course requested given if sufficient number enroll to form a class.\*

University of Arizona.—Astronomy, biology, economics, education, electrical engineering, English, French, German, mathematics, music, philosophy, political science, Spanish.

Advanced educational psychology.x

## ARKANSAS;

Agricultural, Mechanical, and Normal School.-French, government.

Arkansas State Teachers College.—Agriculture, biology, drawing, education, English, geography, history, mathematics, mechanical drawing, science.

State Agricultural and Mechanical Collège.—Algebra, arithmetic, Arkansas history, English grammar, geography, United States history.

University of Arkansas.—Many courses may be taken by class work when the group is large enough to take care of the expense.

## CALIFORNIA:

Chaffey Junior College.—Commercial and manual training subjects.\* Nightschool classes on miscellaneous subjects. Citrus fruits short course, demonstration work in agriculture, horticultural inspectors' course.

Citrus Junior College. - Commercial and manual training subjects.\*

Astronomy, commercial and manual training subjects, French, mathematics, Spanish.

Fresno State Teachers College.—Advanced principles of education, agricultural educational methods, character education, college theater, commercial educational methods, contemporary civilization, growth and development of the child, history of California, history of music, modern methods in examinations, music teaching, organization of elementary schools, parent-teacher organizations, plant biology, principal and his school, principles of economics, psychology of elementary school subjects, reed-furniture weaving, revolutionary Europe, school supervision and administration, social history of the United States, social problems in English literature, stagecraft, State school administration, vocational education and guidance.

Fullerton Union High School and Junior College.—Americanization, auto mechanics, barbers' anatomy, bookkeeping, chemistry, commercial law, contemporary literature, French, interior decorating, machine shop, physical education, practical English, public speaking, sewing, shorthand, Sweding, welding and ornamental iron, woodwork.

Kern County Union Junior College.—Art, English, psychology, short-story writing, United States Constitution.

Marin Union Junior College.—Civics, current events, French, literature, Shakespeare.

Modesto Junior College.—Banking fundamentals, contemporary poetry, music appreciation, negotiable instruments.

Philosophy of education.\*

Riverside Junior College.—Analysis (financial), banking fundamentals, elementary psychology, instrumental music (orchestra), negotiable instruments, vocal music.

Sacramento Junior Collegei—Art, biological sciences, foreign languages, general literature, music, physical education, social sciences.

St. Ignatius College.—Business law, dramatic art, economics, English, French, history, Latin, public speaking, Spanish.

San Bernardino Valley Union Junior College.—Art, art appreciation, biology, chemistry, economics, English literature, French, geology, mathematics, mining, music, physical education, physics, psychology, public speaking, short story, Spanish, studies in plant life, thermodynamics, world culture, zoology.

Santa Ana Junior College.—Applied economics, astronomy, history of religion

and philosophy, salesmanship.

Santa Maria Union High School and Junior College.—Art, commerce, domestic science, English, French, industrial education, Italian, music, physical education, Spanish.\*

Biology, foreign language, geology, orchestra.

State Teachers College (San Diego).—Astronomy, economics, English, foreign languages, history of United States, leather, public health, Spanish, speech corrections, vocational guidance, voice and choral training.

State Teachers College (Santa Barbara).—Industrial art courses for high schools. University of California (Berkeley).—Accounting, advertising, aircraft, architecture, art, astronomy, birds of California, blue-print reading, business English, business law, corporation finance, costume designing, current events, Diesel engines, dramatic reading, economics, education, electricity, English composition, English literature, foreign trade, French, German, harmony, history, hygiene, income tax, insurance, interior decoration, Italian, journalism, landscape gardening, lettering and designing, mathematics, mental tests, music, natural history of the Sierra, office management, parliamentary procedure, philosophy, photography, political science, principles of investment, psychology, public speaking, radio, real estate law, salesmanship, shipping courses, short-story writing, Spanish, speech correction, teaching methods.

University of California (Los Angeles).—Classes cover a wide range of subjects and meet at times and places convenient to the students.

University of Redlands.—English romantic poetry, feature writing, geology,

music and civilization, physics and its application to life.

University of Southern California.—Botany, chemistry, commerce, comparative literature, economics, education, engineering, English, French, geology, German, Greek, history, international relations, Italian, Latin, mathematics, music, oriental studies, philosophy, physical education, physics, political science, psychology, religion, sociology, Spanish, speech, zoology.

Business law, trade and professional lectures.º

### COLORADO:

Colorado State Teachers College.—Economics, education, geography, history, mathematics, psychology, sociology.

University of Colorado.—Advertising, art, botany, education, English, philosophy, psychology, public speaking, salesmanship, short-story writing, Spanish.

University of Denver.—Biological environment appreciation, botany, English, general psychology, principles of education, problems of teaching and religion, psychology of great men and women, race problems, seminar in education.

Western State College.—Art, foreign languages, mathematics, music, physical education, industrial arts.

## CONNECTICUT:

Connecticut University Extension Committee.—Art education, English, international relations, psychology for nurses, social studies.

State Normal School (Danbury).—Elementary education.

State Normal School (Willimantic). - Kindergarten-primary education.

## DELAWARE:

University of Delaware. - English, French, mathematics.

## FLORIDA:

Southern College. - Psychology, public-school music, sociology, Spanish.

\* University of Florida.—Business administration, education, English, history, mathematics, modern languages, physical education.

#### GEORGIA:

Americus Normal College. - American novel, art of fiction, life science.

Bessie Tift College.—Classroom management, educational psychology.

Emory University.—Bible, biology, chemistry, education, English, French, German, government, journalism, physics, psychology, sociology, Spanish,

Georgia School of Technology.—Commercial courses, applied science (given in evening schools).

Morris Brown University.—Mathematics, medieval history, negro history, physiology, psychology, rhetoric, sociology, tests and measurements.

Piedmont College.—Educational psychology, English literature.

South Georgia Training College.—Economics, education, history, mathematics, sociology.

State College of Agriculture.—The courses in extension embrace all the subjects that county agents find essential and necessary in the proper conducting of their office. Courses offered in agriculture and home economics.

University of Georgia.—Accounting, business law, banking and finance, economics, education, English, history, journalism, Latin, mathematics, philosophy, sociology, Spanish.

## HAWAII:

Territorial Normal and Training School.—Art, boy scouting, education, English, geography, industrial arts.

University of Hawaii.—Art, astronomy, commerce, economic geography, education, engineering, English, electricity, French, Hawaiian, history, household art, Japanese, journalism, meteorology, parliamentary procedure, physical education, radio.

## IDAHO:

University of Idaho.—Agriculture, bacteriology, botany, business administration, classes in English, education, economics, engineering, English, French, geology, German, Greek, history, home economics, mathematics, mining philosophy, political science, psychology, sociology, Spanish, zoology.

## TLLINOIS:

American College of Physical Education.—Junior-high-school problems, sociology.

Junior-high-school problems, physiotheraphy, sociology.°

Greenville College.—Child welfare, education, measurements.

Illinois State Normal University.—Economics, history of education, principles of education, school administration, sociology, United States history.

James Milliken University.—Advanced educational psychology, applied sociology, economics, English history, general designing, history of education, social science, Spanish.

Lewis Institute.—Education, English, psychology.

Mount Morris College .- Physical education.

North Park Junior College. - Accounting, shorthand, typewriting.

Northwestern University.—Accounting, advertising, banking, and finance, chemistry, contemporary thought, economics, education, employment management and labor administration, English, fire insurance, foreign trade, French, geology and geography, German, history, journalism, land economics and real estate, manufacturing and production, mathematics, newspaper advertising and promotion, political science, psychology, public utilities, sales management and merchandizing, sociology and anthropology, Spanish, speech, zoology.

Rosary College.—American history, English composition, ethics, French, mathematics, medieval history.

St. Xavier College for Women.—Advanced Spanish, calculus, chemistry, English literature, public speaking, sociology.

Southern Illinois Normal University.—American history, English, French, sociology.

University of Illinois.—Agriculture, ceramic engineering, home economics.

INDIANA:

Ball State Teachers College.—Courses offered in residence given in extension classes when a sufficient number request them.

Butler University.—Botany, church history, economics, education. English, history, journalism, nature study, philosophy, public speaking, Romance languages, sociology.

Central Normal College.—Art, education, English, history, mathematics, music, philosophy, psychology, social science.

Earlham College.—The teaching of ideals.

Evansville College.—American political parties and party problems, analysis of financial statements, business forecasting, business law, community recreation, elementary German, Europeau history, fine and industrial arts, general botany, general zoology, intermediate French, New Testament history, nutrition and health, Old Testament history, play production, social studies, social policy in education, teaching of ideals, tests and measurements.

Franklin College. - American literature, psychology.

Hanover College.—Education, English, science, social studies.

Indiana State Teachers College.—Any course offered in residence may be given in extension (college level) except laboratory and shop courses. When proper facilities are offered the latter may be given.

Budgets and accounting, educational statistics, high-school administration, Indiana school law, philosophy of education, psychology of adolescence, public-school administration, supervision of secondary instruction (graduate level).

Indiana University.—Offers any subjects for which groups of 12 to 16 make application (college level).

Offers any subject for which 12 persons apply (graduate level). Courses are given in 71 cities and towns.

Oakland City College.—Education, social studies.

Purdue University.—Agriculture, teacher-training trades and industries, itinerant teacher training, training in vocational agriculture.

Teachers College of Indianapolis.—American government, experimentation and research, language arts, school administration.

Vincennes University.—College mathematics, freshman composition, teaching of ideals.

## IOWA:

Columbus College. - Education, English, history, mathematics.

Iowa State College of Agriculture and Mechanic Arts (Ames).—Foreman training in industry, teacher training, trade and industrial training.

Iowa State Teachers College,—Art, commercial economics, education, English, German, government, history, home economics, Latin, mathematics, natural science, psychology, Romance languages, rural education.

Morningside College.—Advertising, business law, education, English literature, history, philosophy, physics, Romance languages, sales administration, sociology, speech.

St. Ambrose College.—Accounting, biology, education, English, French, history, logic, mathematics, psychology, Spanish.

University of Dubuque.—English, French, introduction to philosophy, mythology, public speaking.

University of Iowa.—English novel of eighteenth century, general astronomy, short-story writing.

Waldorf Lutheran College. - Music.

## KANBAB:

Hession College and Bible School.—American literature, economics, English literature.

Kansas State Teachers College (Hays).—Agriculture, applied art, biological sciences, business administration, education, English, history and social sciences, home economics, Latin, mathematics, mechanic arts, music, philosophy.

Marymount College.—German, playground activities, rural-school education, zoology.

McPherson College. - Biology, chemistry, education, Edglish.

Southwestern College.—Chemistry, history of art, modern American literature, parliamentary law, public speaking.

Tabor College.-Comparative religions, history of China.

University of Kansas.—Advanced statistics, critical review of paraffin series, development of social work, educational guidance, elementary psychology, elements of economics, elements of sociology, extempore taking, French, labor problems, nontypical child, psychology of moral education, psychology of reading, romantic poetry, social case work, social pathology, Spanish, urban sociology, vocal music in intermediate grades.

Advanced statistics, critical review of paraffin series, development of social work, educational guidance, labor problems, nontypical child, psychiatric aspects of social work, psychology of reading, psychology of moral education, romantic poetry, social case work, urban sociology.

### KENTUCKY:

Centre College.—Advanced and elementary Spanish, history of education, Victorian literature.

Eastern Kentucky State Normal School.—All subjects given in residence offered in extension, except where library and laboratory work is required.

Kentucky Wesleyan College.-Biology, education, English.

Kingswood Holiness College.—Ministerial Bible courses.

Simmons University.—Education, physics.

Sue Bennett Memorial College.—Education, science.

Union College.—English literature, Hebrew history, history of philosophy, public speaking.

University of Louisville.—Biology, chemistry, economics, education, English, French, German history, Latin, mathematics, physics, psychology, sociology, Spanish.

#### LOUISIANA:

Louisiana College. Bible, education, Latin, mathematics.

Louisiana Polytechnic Institute.—Algebra, English.\*

Agriculture, commerce, education, English, French, history, home economics, hygiene and sanitation, Latin, psychology, Spanish.

Louisiana State Normal School.—Economics, education, English, history.

Loyola University.—English, foreign languages, history, mathematics, music, philosophy, science, social sciences.

Louisiana State University.—Architectural drawing, comparative literature, education, mechanical drawing, psychology, sociology.

All subjects given on college level except drawing. ×

New Orleans University.—Economics, English, geometry, sociology.\*

American democracy, Bible, economics, education, European history, ethics, history and philosophy, psychology, rhetoric, technique of teaching, sociology.

Southern University and Agricultural and Mechanical College.—College algebra, education, English literature, general psychology, principles of sociology, Roman history, United States history.

Southwestern Louisiana Institute.—Agriculture, English, history, Louisiana history, political science.

#### MARYLAND:

College of Notre Dame of Maryland.—The same subjects offered in regular college schedule are offered in extension.

Johns Hopkins University.—College courses for teachers, evening courses in business economics, night courses for technical workers, short courses for meter men, summer courses.

Morgan College.—Academic and professional courses.

University of Maryland. - Mining engineering, vocational education.

Talks on agriculture.º

Washington College.—Summer courses for ministers.

Western Maryland College.—English, French, history, mathematics, secondary education.

#### MASSACHUSETTS:

Boston University.—Anglo-Saxon architecture, astronomy, biology, chemistry, drama, English, fine arts, French, geology, German, history, Italian, Latin, mathematics, music, public speaking, Sanskrit, sociology, Spanish.

Clark University.—Biology, economics, English, French, geography, German, mathematics, psychology.

Division of University Extension, Massachusetts State Department of Education.— Extension classes are organized in various towns and cities covering nearly all high school and college subjects.

Harvard University.—Astronomy, botany, economics, English composition, English literature, fine arts, French, geography, geology, German, government, history, Italian, music, philosophy, psychology, Spanish, zoology.

Massachusetts Agricultural College. - Methods in extension teaching.

Smith College.—Education, English, English literature, modern language, music, public speaking.

State Normal School (Westfield).—History, literature, psychology, testing.

State Normal School (Worcester).—Economic geography, educational tests and measurements, English expression, English literature, modern European history, principles of economics, psychology of adolescence, world geography and literature.

### MICHIGAN:

Alma College.—Elementary French, principles of education, Spanish.

Central State Teachers College (Mount Pleasant).—Extension work may be undertaken at any place which can be reached conveniently from Mount Pleasant whenever a sufficient number to warrant a class can be secured.

Detroit Teachers College,—A great variety of courses for teachers in service.

Michigan State Normal School.—Any subject given in residence for which there is a sufficient number of students to warrant a class.

Port Huron Junior College.—Chemistry, child psychology, fine arts, sociology, Spanish.

· University of Detroit.—Biology, botany, chemistry, education, French, German. history, Latin, mathematics, philosophy, psychology, Spanish.

The foregoing subjects are also offered on graduate level.

University of Michigan.—Nearly all subjects on college level offered in residence are given in extension work when a sufficient number of students request them.

Anthropology, business administration, decorative design, education, English, geography, history, hygiene, journalism, landscape design, mechanical engineering, philosophy, psychology, rhetoric, Russian literature in English, sociology, speech.

#### MINNESOTA:

State Teachers College (Bemidji).—Advanced principles of education, economic history of United States, technique of teaching.

State Teachers College (Duluth).—Essays, geography of Central America and Mexico, geography of Europe, history of act.

State Teachers College (Moorhead).—Any subject offered on campus except those requiring laboratory work.

University of Minnesota.—English mathematics.\*

Business, education, engineering, French, literature and the arts, science, Spanish.

". Winona State Teachers College.—Child guidance, dramatics, French, psychology.
Mississippi:

Alcorn Agricultural and Mechanical College.—Agronomy, animal husbandry, clothing, food, horticulture.\*

Agronomy, animal husbandry, clothing, food, home management, horticulture. Blue Mountain College.—Bible as literature, child psychology, classroom management, English, English composition, mental hygiene.

Mississippi College.—Education, English, history, mathematics, psychology, religious education, sociology.

#### MISSOURI:

Cottey Junior College. - Education, history.

Culver Stockton College.—Education. English, history, sociology.

Junior College of Flat River.—Child-welfare, diagnostic testing, remedial testing.

Northeast Missouri State Teachers College.—One center where extension work is given.

St. Louis University.—Chemistry, education, English, history, language:

Southeast Missouri State Teachers College.—Art, commerce and business, education, English, history, mathematics, science.\*

Southwest Missouri State Teachers College.—Agriculture, art, commerce, education, English, foreign languages, history, home economics, mathematics, music, political science, science, sociology, speech.

University of Missouri.—Agriculture, botany, chemistry, economics, education, English, French and Italian, geography, Germanic languages, history, home economics, industrial arts, Latin, mathematics, physics, political science and public law, rural sociology, sociology, Spanish, zoology.

Administration of educational tests, administration of industrial education, curriculum construction, projects in moral education, psychology of elementary school subjects, teaching of reading.\*

Washington University.—Accounting, advertising, architecture, art, aviation, business, engineering, English, Hebrew, history, home economics, interior decoration, law literature, mathematics, music, navigation, nursing, political science, preparatory courses in mathematics, psychology, public speaking, Scandinavian, sociology and social work, Spanish, special courses in English, special courses for teachers of handicapped children.\*

Astronomy, botany, chemistry, drafting, economics, education, English, French, geography and geology, German, Greek, history, Italian, journalism, Latin, literature, mathematics, philosophy, physics, political psychology, public speaking, sociology and social work, Spanish, zoology.

MONTANA:

Eastern Montana Normal School.—Art, education, English, mathematics, physical education, science, social science.

Montana State Normal College.—Certificate and credit courses as requested.

NEBRASKA:

Creighton University .- Extra curricular activities, Victorian plays.

Grand Island College. - Greek history, principles of education.

McCook Junior College.—Chronicles of America. (class work prepared under University of Nebraska).

Midland College.—Bible, ethics, general administration, hygiene, languages, Latin, logic, mathematics, methods, philosophy, principles of sociology, psychology, Romance languages.

Nebraska Wesleyan University.—Applied psychology, Bible literature, education for citizenship, ethics, history of education, national government, twentieth-century schools.

Noncollegiate courses.°

Peru State Teachers College.—Biology, education, English, geography, history, mathematics, physics, psychology, public-school music.

University of Nebraska.—Study centers organized where 10 or more persons ask for them. School for scout masters.

University of Omaha. - Latin. \*

Education, fine arts, literature, philosophy, political and social sciences, psychology, religion, science.

NEW HAMPSHIRE:"

University of New Hampshire.—Administration, English, philosophy, psy-chology, technique.

NEW JERSEY:

New Jersey State Normal School.—Art, geography, industrial art, industrial art problems, music appreciation, nature study, reading problems.

New Jersey State Teachers College.—Arts, English, mathematics, modern languages, principles of teaching, psychology, science.

Panzer College of Physical Education.—Chemistry of biology, health education, nature and character of dancing, nature and function of play, principles of education, rhythmical and expressive gymnastics.

Paterson State Normal College.—Contemporary literature, drawing, elementary science, English, health teaching, story telling, technique of teaching.

Rutgers University.—Business English, child psychology, diction and oral English, electricity, English, foreman training, chemistry, law, mechanical engineering, psychology, public speaking.

State Teachers College.—Accounting and bookkeeping, art, dramatics, English, French, home economics, mathematics, music, physical education, social sciences.

New Mexico:

New Mexico College of Agriculture and Mechanical Arts.—Vocabulary building.

New Mexico State Teachers College.—Extension classes held in 13 towns.

Courses in English, history, political sciences.

University of New Mexico.—Anthropology, economics, education, English, geology, history, mathematics, psychology, Spanish.

NEVADA:

University of Nevada.—Agriculture, dairying, home economics.

NEW YORK:

College of Mount St. Vincent.—Algebra, biology, civics, drawing, geometry, grammar, physics.\*

English, French, Greek, history, Latin, mathematics, psychology.

Columbia University.—Agriculture, anthropology, architecture, astronomy, botany, business, chemistry, Chinese, drawing, economics, engineering, English, fine arts, general science, geography, geology, Germanic languages, government and public law, Greek, Hebrew, history, household arts, hygiene, Indo-Iranian languages, industrial arts, Irish, Japanese, Latin, law, library service, mathematics, mineralogy, music, neurology, optometry, philosophy, photoplay composition, physical education, physics, physiology, religion, Romance languages, secretarial correspondence, secretarial studies, Slavonic languages, sociology and social economy, statistics, stenography and typewriting, textiles, zoology.

Elmira College.—Art, economics and sociology, English, French, geography, geology, German, history, home economics, philosophy, psychology and educa-

tion, science, school of music, Spanish, speech education.

Hunter College of the City of New York.—Adult immigrant education, art, basketry, bookkeeping, chemistry, civics, dietetics, English, geography, history, mathematics, millinery, modern languages, music, penmanship, physical training, science, school management, sewing, shopwork, speech, stenography, textiles, typing, visual instruction.

New York State College for Teachers.—American literature, education, English poets of nineteenth century, history of Europe, hygiene, modern music, principles of education.

Classroom organization, construction of curriculum, educational measurements, philosophy of education.x

New York University.—Chemistry, dramatic art, engineering, French, government, history, home economics, mathematics, physics, psychology, public health nursing, public speaking, social service, Spanish, women's law class.

Noncredit courses by radio.

Russell Sage College—Six weeks' summer course at Cymnastic Folk High School at Ollerup, Denmark.

St. Bonaventure College.—Education, mathematics, modern and classical languages, philosophy, science.

State Normal School (Fredonia).—Contemporary literature, history of civilization.

State Normal School (Geneseo).—Teachers' courses in rural-school curriculum and technique of teaching.

State Normal School (New Paltz).—Economics, history of civilization, modern Europe, tests and measurements, visual instruction.

State Teachers College (Buffalo).—Art, education, English, history kindergartenprimary education, mathematics, science, school publications, sociology, vocational education.

Syracuse University.—Art, botany, business, chemistry, child care, commerce, economics, education, electricity, English, finance, geography, history, Latin, mathematics, mechanical drawing, modern languages, music, political science, psychology, public speaking, real estate, sociology, stenography, typewriting.

Union College.—Art, astronomy, chemistry, civil engineering, economics, electrical engineering, English, history, mathematics, modern languages, music, philosophy, physics, political science, psychology.

University of Buffalo .- Evening-school courses for which there is a demand.

University of Rochester.—Art, astronomy, biology, chemistry, economics, education, English, French, geology, German, government, Greek, history, Italian, Latin, mathematics, philosophy, physics, psychology, religion, sociology, Spanish.

NORTH CAROLINA:

Atlantic Christian College.—Class instruction for negro teachers of the county. Catawba College.—Economic geography, geology, history of art, public-school music, rural sociology, visual education.

Davidson College. - Geography, history.

Duquesne University.- English, Latin.

Guilford College.-Psychology.

Johnson C. Smith University.—Educational and vocational guidance; the Negro in our history.

Livingston College.—Child study.

Lenoir-Rhyne College.—American public schools, economic geography, visual education.

North Carolina College for Women.—Education, English, history.

North Carolina State College of Agriculture and Engineering.—Chemistry, education, English, history, modern languages, sociology.

Salem College.—Art for elementary teachers, education, health and physical education, individual and special class methods, school library management, seminar in educational problems, tests and measurements, vocational and educational guidance.

State Normal School.—Child study, comparative study of school systems, curriculum construction.

University of North Carolina.—Practically any course given in residence may be offered in extension classes if 15 persons register for it.

#### NORTH DAKOTA:

North Dakota Agricultural College.—Accounting, crafts, drawing and painting, economics, English, French, German, history of civilization, journalism, parliamentary law, psychology, public speaking, trigonometry.

North Dakota School of Forestry.—Bookkeeping, shorthand, typing.\*

Accounting, clothing, crafts, foods, French, gymnasium, interior decorating.

State Teachers College (Mayville).—History of architecture, history of painting, projects in rural education, supervision of instruction.

State Teachers College (Minot).—Any subject for which there is sufficient demand.

University of North Dakota.—Art appreciation, dancing, English, French, gymnastics, history, Italian, lectures for barbers.

Lectures, many of instructional nature.°

#### Оню

Baldwin-Wallace College.—Adolescent psychology, public speaking.

Lectures.º

Bluffton College. - Boy Scout courses.\*

Adolescent psychology, business psychology,

Case School of Applied Science.—Applied electricity, industrial electrical lighting.

Denison University.—English, French, sociology.

Marietta College.—Education.

Miami University.—Economics, English, French, geography, industrial education, school administration.

Muskingum College.—Bible, biology, economics, education, English, geology, history, modern languages, music, political science.

Ohio Northern University.—Accounting, advertising, aeronautics, American poetry, appreciation of music, art, aviation, building and loan course, electricity, engineering, machine design, management, real estate, production, secretarial studies, short-story writing.

Ohio State University.—Agriculture, commerce, home economics, journalism.

Ohio University.—Biology, education, English, geography, history, physical education, sociology.

St. Xavier College.—Chemistry, English, French, German, Greek, high-school methods, history, Latin, mathematics, philosophy, psychology, Spanish.

University of Akron.—Accounting, advertising, aeronautics, art, aviation, building and loan, electricity, engineering, machine design, production management, purchasing management, real estate, secretarial studies, short-story writing.

University of Cincinnati.—Botany, commerce, education, elements of astronomy, evolution, geography, psychology, supervision and methods of teaching of public-school music.

Ursuline College.—Chemistry, education, English, French, German, history of art, Latin, Spanish.

Western Reserve University.—Art, astronomy, biology, business administration, education, English, general service, Greek, history, home economics, journalism, Latin, library science, mathematics, modern foreign languages, music, parental education, political science, psychology, social science, speech.

Wittenberg College.—Academic teacher-training subjects, business industrial courses, religious subjects.

## **OKLAHOMA**

Catholic College of Oklahoma.—College algebra, French, geometry, Latin, trigonometry.

Central Teachers College.—Any subject listed in catalogue (except laboratory) where requested.

Northeastern State Teachers College.—Art, agriculture, business education, education, English, history and government, home economics, hygiene and health, industrial art, Latin, mathematics, modern and foreign languages, music, physical science, psychology, religious education, rural education, sociology and economics.

Oklahoma Agricultural and Mechanical College.—Curriculum of secondary education, extracurricular activities, international law, juvenile literature, population, sociology.

The aforementioned subjects, educational classics, ethics and moral education, problems of the superintendent, school statistics.\*

Oklahoma College for Women .- Cooking, physical education.

Panhandle Agricultural and Mechanical College.—History and history of the West.

University of Oklahoma.—Accounting, archeology, botany, business law, education, English, first aid, French, geography, government, health, history, Latin, psychology, public speaking, salesmanship, Spanish.

University of Tulsa.—Bible, botany, economics, English, geology, history, journalism, literature, modern languages, petrol engineering, physics, psychology, test measurements, zoology.

## OREGON

Oregon State Agricultural College.—Courses for 4-H Clubs and short courses.\*
Lectures on farm subjects, home making, markets and business.°

University of Oregon.—Architecture and allied arts, art, business administration, chemistry, diagnostic tests for elementary schools, education, English, German, health education, history, journalism, Latin, Library methods, mathematics, medicine, music, philosophy, physical education, psychology, public speaking, Romance languages, sociology.

#### PENNSYLVANIA:

. Albright College. - Educational guidance, government, sociology.

Bucknell University.—Biology, educational psychology, educational sociology, embryology, English, forestry, French, guidance, history of United States, 1828–1865, problems of childhood, school ethics.

Carnegie Institute of Technology.—Courses in engineering, fine arts, industry and trades.

Dickinson College.—Tests and measurements.

Drexel Institute of Art.—Art, child development, clothing, economics, education, English, food and nutrition, history, sociology.

Geneva College.—Bible, biology, business law, economics, French, history, history of art, mathematics, mechanical drawing, modern novel, music, political science, Spanish.

Gratz College.-Hebrew, history, Jewish Bible, pedagogy.

Hebrew history, Jewish Bible, pedagogy.\*

Immaculata College.—Latin, mathematics.\*

Algebra, American history, Latin, school hygiene, Shakespeare, Spanish, special high-school methods.

Juniala College.—American history, educational psychology, foods, mathematics, Shakespeare.

Lebanon Valley College.—American history, biography, chemistry, English, French, Latin, philosophy of education, psychology, sociology, trigonometry, world politics.

Maywood College.—Bookkeeping, chemistry, English, ethics, French, finance, history, Latin, logic, methematics, oral English, psychology, public-school music, religion, sociology, stenography.

Messiah Bible College.—English, general history, Latin, United States history and civics.

Bible subjects, college seminar subjects.\*

Muhlenberg College.—Advertising, algebra, Bible, business letters, chemistry, drama, economics, English, French, geography, German, Greek, history, Latin, mental hygiene, nature study, problems in education, psychology, salesmanship, sociology, Spanish, statistics, zoology.

St. Thomas College. - English, French, history, Latin, mathematics\*.

Biology, economics, education, English, French, history, Latin, mathematics.

St. Vincent College.—Piano and violin music\*.

Apologetics, ethics, Greek, Latin, logic, natural theology, philosophy, theory of music, violin and piano.

Seton Hill College.—Contemporary literature, education, French, history, history of architecture, home economics, journalism, medieval literature, picture analysis, the novel.

State Teachers College (Clarion).—Advanced composition, American government, biology, economics, teaching arithmetic.

State Teachers College (Edinboro).—History of organization of education in Pennsylvania.

State Teachers College (Indiana).—Economic biology, educational sociology, social studies.

State Teachers College (Kutztown).—Art, biology, civic education, educational measurements, educational psychology, English, history of education in Pennsylvania, human geography, mathematical analysis, oral expression, teaching English.

State Teachers College (Lock Haven).—Educational psychology, geography, history of education, political science, principles of education.

State Teachers College (Slippery Rock).—American literature, civic education in elementary schools, educational psychology, teaching and supervision of arithmetic in elementary schools.

State Teachers College (Westchester).—Advanced composition, algebra, economical biology, economic education, geometry, history and organization of education in Pennsylvania, measurements, short story.

Susquehanna University.—Astronomy, argumentation, biology, French, German, general physics, insurance, meteorology, social psychology, Spanish.

Temple University.—Americanization methods, art, biology, chemistry, commerce, economics, education and psychology, English, French, German, history, home economics, industrial arts, Italian, Latin, mathematics, nursery-school education, physical and health education, psychology, sociology, Spanish.

The Pennsylvania State College.—Botany, chemistry, commercial education, education, educational administration, educational hygiene, economics, engineering, English, French, geography, German, history, history and principles of education, philosophy, psychology, public speaking, rural education, secondary education, sociology, Spanish, zoology.

University of Pennsylvania.—Accounting, economics, English literature, finance,

geography, history, mathematics, psychology, school management.

University of Pittsburgh.—Accounting, economics, elementary and secondary education, English, history, history and principles, mathematics, physics, psychology, religious education, sociology, Spanish, zoology.

Radio lectures five nights per week from October to May, inclusive.°

Washington and Jefferson College. - Accounting, county and township government, current educational and social problems, English literature, man in the making.

Waynesburg College.—Advanced educational psychology, educational tests and measurements, public-school administration.

RHODE ISLAND:

Rhode Island College of Education.—Training courses for teachers in service. Rhode Island State College. - Agronomy, animal husbandry, 4-H Club work, fruit growing, home economics, poultry raising.

SOUTH CAROLINA:

Clemson Agricultural College.-Agriculture, corn and cotton breeding, dairy husbandry, entomology, home economics, livestock, marketing, orchard raising, poultry work, textile research.

College of Charleston .- Accounting, advertising, banking, business English, business policy, finance, foreign trade, labor probems, Spanish, statistics.

Wofford College.—Education, foreign languages, social science.

SOUTH DAKOTA:

Augustana College.—English, sociology.

Notre Dame Junior College.—Education, history, language.

Sioux Falls College. - Any of the subjects offered by correspondence, provided

enough students are available.

South Dakota State College of Agricultural and Mechanical Arts .- Agriculture, home economics, rural organizations, rural sociology, work for boys' and girls' clubs.

TENNESSEE:

Bible College.—History of development of British Empire, history of education. East Tennessee Teachers College.—Classroom management, educational psychology, English and arithmetic, teaching of reading, tests and measurements.

George Peabody College for Teachers.—Agriculture, biology, economics, education, English, fine arts, geography, history, home economics, industrial arts, Latin, mathematics, modern languages, physical education, psychology.

Lane College.—Education, English, foreign languages, mathematics.

Lemoyne Junior College.—Education, homemaking, liberal arts.

Morristown Normal and Industrial College.-Library work.

Tennessee Wesleyan College.—Normal courses, public speaking, religious education, Spanish.

Union University.—Education, history, sociology.

University of Chattanooga.—Biology, education, methods, finance, public-school music, sociology, Spanish.

University of Tennessee.—College entrance subjects and vocational subjects.\*
College subjects.

#### TEXAS

Agricultural and Mechanical College of Texas.—Boys' and girls' club courses, farm demonstration, home demonstration and economics.

Austin College.—American history, foreign relations of United States.

Baylor College for Women .- Subjects offered as required.

Baylor University.—Accounting, agriculture, art appreciation, Bible botany, economics, education, English, French, German, history, Latin, journalism, mathematics, political science, psychology, sociology, Spanish, zoology,

Bishop College.—Economics, education, English, history, mathematics, Span-ish, sociology.

Gainesville Junior College. - Spanish government.

Paul Quinn College.—Biology, college algebra, education, English, high-school methods, public speaking.

Prairie View State College. - Economics, education, English, sociology.

Sam Houston State Teachers College.—Biology, drawing, education, English, history, home economics.

Stephen F. Austin State Teachers College.—Child psychology, educational psychology, English, Government of United States, school administration.

Texarkana Junior College.—Educational psychology, government, public speaking.

Texas College of Arts and Industries.—Economics, education, English, French, geography, history, Latin, mathematics, sociology, Spanish.

Texas Technological College.—Chemistry, economics, education, English, geology, government, history, public speaking.

Economics, education, English, government, history.\*

University of Texas.—Advanced accounting, auditing, business law, certified public accounting problems, public speaking.

Child accounting, organization and administration of public-school curricula, public-school supervision, rural education, State and county educational organisation.

Weatherford College. - Economic history of the United States, education.

Wesley College. - Economics, education, English, government, history.

Westminster College.—Algebra, American history, educational methods, educational psychology, European history, trigonometry.

### UTAH:

Agricultural College of Utah.—Agriculture, home economics, leadership and erganization, methods.

Dixie College.—American literature 1929-80, domestic art, scout leadership. Westminster College.—Psychology, religion.

## VERMONT:

State Normal School.—History of education, literature, mental hygiene, school management, tests and measurements.

## VIRGINIA:

College of William and Mary.—Ancient languages, business administration, economics, education, English, government, history, modern languages, mathematics, philosophy and psychology, public speaking.

Current events.°

Hampton Institute.—Education, English, geography, history, industrial arts, mathematics, modern arts and sciences, music, nature study, physical education, political science.

Radford State Teachers College.—Any subject offered in residence given at a center when properly requested.

State Teachers College. - Biology, education, English, history.

University of Virginia.—Practically all subjects that are offered in residence; lecture courses on child development.

Weekly book reviews by radio.°

Virginia Agricultural and Mechanical College and Polytechnic Institute.—Agriculture, animal husbandry, boys' and girls' agricultural club work, dairying, engineering, teacher training.

Virginia Union University.—English and American literature, history, principles and methods of high-school teaching, sociology.

#### WASHINGTON:

University of Washington .- English, mathematics, history.\*

Anthropology, astronomy, botany, chemistry, classical languages and literature, dramatic art, economics and business administration, education, English, engineering, geography, geology, Germanic language and literature, history, home economics, journalism, mathematics, music, navigation, oriental studies, painting, sculpture and design, philosophy, psychology, Romance languages and literature, Scandinavian language and literature, sociology.

Washington State College.—Astronomy, bird study, English and cublic speaking, foreign languages, geology, journalism, modern novel, modern poetry, physical education, political science, sociology.

Washington State Normal School (Ellensburg).—Extension classes organized when 10 or more apply for subjects that can conveniently be given from Ellensburg. One class each quarter in Yakima.

#### WEST VIRGINIA:

Alderson Junior College.—Educational measurements, health education, juvenile literature.

Broaddus College.—Education, history, journalism.

Concord State Teachers College.—Agriculture, economics, education, English, geography, geology, history, political science, sanitation.

Davis and Elkins College.—Education, science.

Fairmont State Normal College.—Economics, general biology, geography, history, modern novel:

Glenville State Normal School.—American government, educational psychology, modern poetry, the short story.

Marshall College.—Education, physical education, psychology, sociology.

Morris Harvey College.—Algebra, education.

New River State School.—Economics, English, geology, history, language, mathematics.

Shepherd College State Normal School.—Art, economics, education, English, history.

Storer College.-Music, science.

West Liberty State Normal School.—Art, education, geography, home economics, health education, literature, mathematics, psychology, school management, sociology.

West Virginia State College.—English literature, municipal government, publicschool music, tests and measurements.

West Virginia University.—Agriculture, arts and sciences, home economics, hygiene of maternity and nursing, industrial education, mining, public health nursing.

### WISCONSIN:

Milwaukee-Downer College. - Art, clothing, food. \*

State Teachers College (La Crosse).—Any subject for which there is a sufficient request to form a class of 10 or more.

State Teachers College (Milwaukee).—Art, education, English, geography, history/kindergarten-primary, mathematics, music, physics, science, social science, speech.

State Teachers College (Oshkosh).—College physics.

University of Wisconsin.—Accounting, business, chemistry, economics, education, engineering (to include civil, electrical, mechanical), English, finance and credit, history, liberal education (to include appreciation of modern art, home planning and decorating, textiles), marketing and advertising, mathematics, modern languages, psychology, real estate, secretarial work, and practically any subject for which there is a demand.

### WYOMING:

University of Wyoming.—Education, English, music.

## Radio

To the division of university extension of the Massachusetts State Department of Education, it is reported, belongs the credit of having originated and launched the first radio course given as college work. This broadcasting educational lectures as a part of a college course was begun in the fall of 1923 with an enrollment of three students; the course given was in household management. In the 29 subsequent courses given, 7,500 students have been enrolled.

Seventy-seven colleges and universities own and operate broadcasting stations, and approximately 80 other institutions of higher learning broadcast educational matter over commercial stations.

The procedure for enrollment for a subject by radio is made as simple as possible. Those who desire a certificate and personal correction of papers apply for enrollment blanks. When the blank is returned to the institution, together with a small fee, literature supplementing what is given over the radio is then sent to the student. The student, after listening to the lecture and reading the instructions, prepares his lesson or thesis and sends it to his instructor, who grades and returns it.

# Institutes, Conferences, or Short Courses

Institutes, conferences, or short courses were held during 1928-29, in 166 institutions of higher learning. Until recently there has been much confusion as to the significance of the terms "institutes," "conferences," and "short courses."

In 1924 a committee of the Association of Land-Grant Colleges made suggestions as follows:

(1) A short course is a course of systematic instruction in a given subject or group of subjects of shorter duration than a 4-year college course and not leading to a degree. Obviously a course of systematic instruction can not be given in a few unrelated lectures within a period of a few days.

(2) Extension meetings, farmers' weeks, and similar meetings for a few days, having a miscellaneous program and no really systematic instruction, should not

be called short courses, but conferences or institutes.

(3) Short courses may be classified according to their duration as years' courses, months' courses, or weeks' courses and should be designated by their duration rather than by the general term "short course." For example, instead of announcing a short course in dairying, occupying six weeks, the college should announce a six weeks' course in dairying.

(4) Full consideration should be given by the colleges to whatever informational or instructional work is being done by their extension departments, by the special secondary schools, or by the ordinary high schools, and they should so limit and organize short courses as to give them a definite place in the college

program without duplicating the work of other agencies.1

# Library Service

Library service is granted to the public by 177 colleges and universities in 45 States and Hawaii. If a State has no library system, these institutional libraries supply the demand upon them so far as their limited funds will permit. If there is a State library system, these college and university libraries render a more specialized service by furnishing organized study materials to individuals and to study groups.

The University of Virginia reports as follows on its library bureau:

The function of this bureau is to assemble information and reference material on subjects of current interest for the use of organizations or individuals requesting such data. The material is furnished at a nominal charge for postage and packing. Clippings from a number of newspapers and magazines of general appeal are filed, and bulletins of National and State organizations collected. Especial attention is given to supplying the needs of members of the Virginia High School League for material on the subject of the state-wide debate.

# Public Lectures

Women's clubs, teachers' institutes, and high schools frequently request lectures by faculty members of universities and colleges. Two hundred and twenty-nine institutions report that they rendered

A History of Agricultural Education in the United Plates, 1785-1925, by A. C. True.

such service during 1928-29. In some cases they not only furnished the lecturers but often suggested subjects suitable for the occasions. Oftentimes slides and films, as well as music to accompany the lectures, are furnished. Some colleges and universities include in their lecture programs speakers from outside the State. This practice offers a wider choice of lecturers and creates a greater interest in the subjects studied.

# Home Reading Courses

Home reading courses render valuable assistance to persons who are unable to attend schools or colleges. Thirty-seven institutions report that they provide such courses. The types of courses offered follow: (1) Courses prepared by the institutions themselves, (2) the reading courses of the United States Office of Education, and (3) the "Reading with a Purpose" courses of the American Library Association.

The following descriptions of the reading courses mentioned are of interest:

- (1) Some of the institutions provide courses of their own on subjects for which there is a demand. The number of these courses is growing constantly. An individual seeking information about reading material would do well to correspond with some institution in his State which offers this service. American and English literature are two subjects on which such courses are provided.
- (2) The United States Office of Education has many reading courses. Each contains a short introduction, a list of books for suggested reading, with a brief annotation of the contents of each book recommended.
- (3) The aim of the American Library Association in its series "Reading with a Purpose" is to aid readers in various fields who are looking for direction. Short reviews of the books to be read are given in each list; these reviews are written in a manner to arouse the interest of the reader. The lists are carefully made and are rendering a valuable service.

# Visual Instruction

The number of colleges and universities which report furnishing visual aids for instruction and entertainment purposes has increased during the past few years from 52 to 134. All of these institutions offer lantern slides; 93 offer films, 61 provide mounted pictures, and 56 unmounted pictures. The value of ordinary mounted and unmounted photographs and pictures is recognized more and more by teachers. Some educational institutions are offering short courses to teachers and club leaders on how to use visual aids to the best advantage.

The University of Alabama has been especially active in developing visual education, having obtained the services of a full-time expert and special equipment for carrying on the work.

For several years the extension division of the University of Wisconsin has loaned educational lantern slides, motion-picture films, mounted photographs, charts, anatomical casts, and other illustrative material to schools, churches, clubs, and other organizations. This service is organized in the bureau of visual instruction, which is making a thorough and systematic study of materials that may be used in illustrative teaching or in instruction through the medium of the eye, and placing such materials within easy and constant reach of all schools and other civic organizations of the State.

## Publications Educational in Nature

The issuance for general distribution of publications of an educational nature is reported by 126 colleges and universities. The following titles reported by two institutions will give an idea of the character of publications available:

University of Illinois.—Bulletins on agriculture, biology, commerce, education, engineering, English, Germanic philology, paleopathology, the Life of the Pleistocene, the Pilgrim Tercentenary, etc.

University of California.—Agricultural sciences, anatomy, archeology and ethnology, astronomy, botany, classical philology, economics, education, engineering, entomology, geography, geology, history, mathematics, modern philology, pathology, philosophy, psychology, Semitic philology, zoology; also circulars and bulletins of the agricultural experiment station, a library bulletin, a semi-annual bulletin of the siesmographic stations, and a series of prize essays.

# Parent-Teacher Associations and Other Club Service

The parent-teacher movement has developed to such an extent and has become such an important factor that courses of instruction in parent-teacher activities have been offered by many colleges and universities. In 1929 the parent-teacher associations had a national membership of 1,382,742.

One hundred and thirty-three institutions of higher learning report that they promote parent-teacher association service, and 115 report that they render other club service. This is done by assisting in the formulation of programs, giving advice and information on the topics of study, publishing pamphlets, distributing literature, and helping to prepare monthly bulletins for the organizations they serve.

# Community Drama

The great task of teaching people to play, to interpret through pageants, folk plays, and dramas the spirit and history of the State, has fallen to the universities and colleges. Through such work these

institutions keep alive the traditions that reach far back into the history of the race. One hundred and five institutions report that they are active in this important work.

The catalogue of the University of North Carolina has this to say of its bureau of community drama:

The bureau aims to encourage the writing of original plays drawn from traditional and local history and also from the present-day life of the people. The services of a trained director will be supplied, where practicable, either to produce a play or to give advice concerning the details of scenery, costuming, make-up, etc. Field representatives will be sent out to advise concerning stage construction and equipment.

The bureau will undertake the direction of the writing of communal plays based on history and tradition. It will aid any community in securing an expert dramatic director, who will take entire charge of the production, if desired. The library extension service may be utilized by any citizen of the State in selecting plays and pageants and procuring reference books on production, as well as historical material for the writing of community pageants and plays.

# Promotion of Debates

Public debate is thought by some to be one of the best means of informing the general public on questions of general interest. One hundred and ninety-one colleges and universities report that they sponsor debates. Great interest in debate is shown by adults of all ages, as well as by high-school boys and girls. Many of the universities and colleges arrange for annual meets of debating teams, where members of the faculty and others serve as judges. In some cases these debates are broadcast over the radio, thus becoming national in scope.

The University of Texas cooperates with the State organization of public schools, formed at the State Teachers Association meeting at Abilene in 1910, in conducting local, county, district, and State contests in debating, music memory, declamation, essay writing, spelling, and athletics. Each school belonging to the league pays an annual membership fee proportioned to the size of the school. The membership has increased from 28 schools in 1911 to more than 4,000 in 1925. The league is generally recognized as an important factor in promoting education for citizenship.

The University of Colorado strives to stimulate, and maintain interest and activity in debating and oratory among the high schools of Colorado, and for this purpose the State High School Debating League is jointly operated and directed by the extension division and debating and oratory section of the department of English language. In this way debating contests are conducted throughout the State each year. Any high school may participate. The schools desiring to join the league are placed in four groups according to a geographical division of the State. Elimination contests are held in each district during the winter and early spring months. The four

winning teams then come to the university for the championship debate. The winners of the championship are recognized by the award of suitable medals.

## Miscellaneous Extension Work

A few institutions have recently inaugurated some extension work along lines outside of the usual ones listed, as follows: The University of Kansas sponsors a short course for members of the fire department; the University of Kentucky gives a noncredit course by correspondence for miners; Bucknell University (Pennsylvania) gives a course in sanitation for barbers. Northern Normal and Industrial School (South Dakota), through its extension department, is cooperating with the new science fraternity organized in the institution to give service to the science teachers in the field, and also to help stimulate an interest in science subjects in the high schools of the State.

The University of Wisconsin reports that to meet the need for information in the important field of municipal government, information which is difficult to obtain and hard to keep up to date, a bureau of municipal information is maintained for the service of the cities and villages of the State. The bureau collects and furnishes technical information on all subjects of municipal organization and administration, public works, public utilities and public service rates, commission and city manager government, home rule, and civic organizations. It also gives information on municipal employment, paving, parks and playgrounds, housing, dust prevention, smoke abatement, city planning, civic centers, art commissions, care of city trees, schools, accounting methods, comparative statistics, and other subjects of municipal interest. It collects and maintains a file of charters, ordinances, and official publications of the principal cities of the United States. It has correspondents in most of the American cities, and in this way is able to furnish information as to which cities have passed an ordinance of any type (for instance, a milk ordinance or a wheel tax ordinance); to present data as to the efficiency of different types of ordinances; and, if desired, to lend copies of particular enactments. It can tell how boards of public works are organized in various cities, how school boards are constituted, or how street sprinkling or street repairs are In short, it aims to be a clearing house for municipal experipaid for. ments and experiences.

To create more general interest in art and to facilitate a more universal application of artistic principles in the home and in the public life of the State, the division of extension of the University of Virginia has established a bureau of art extension. Thus far its offerings consist chiefly in the loan of exhibits of Medici prints of famous paintings to schools, churches, and other organizations throughout the State. The prints are arranged by schools and include productions from the Italian, Flemish, French, English, German, and Spanish.

The University of North Carolina announces a transcontinental study tour, and is also sponsoring for 1930 the third annual residential tour to France which provides for credit courses in French language and literature.

Rutgers University (New Jersey) will conduct a third annual engineering tour to Europe from July 5 to September 1, 1930. A credit course in management problems will be given in connection with the tour.

The Tuskegee Normal and Industrial Institute (Alabama) reports that its movable school is one phase of agricultural extension which is undoubtedly the best means discovered for proving to the country people generally that they can improve their own condition. work is especially adapted to negro farmers, for the simple reason that it reaches "the man farthest down," who lives in the remote sections of the rural districts; hence the methods used by the workers must needs be elementary. The real object of the movable school of agriculture is to place before the farmers concrete illustrations proving to them that they can do better work, make more produce on a smaller number of acres of land at less expense, and at the same time beautify their homes. The movable school is equipped with a motor truck, which carries tools and implements with which to teach the farmers how to work, and in addition carries equipment to teach the farmers as well how to play. This form of exercise includes athletics for boys and girls and various forms of mild recreation for men and women. The movable school force consists of one man agent, one woman agent, and a public-health nurse. The simple and practical demonstrations carried on by the agents of this school go far toward stimulating interest of the negro farmer in his home and strengthening his attachment for it, even though he may not own it.

# Tendencies

There is a growing tendency for educational institutions to combine their efforts in extension work. The Connecticut State Board of Education under its present arrangement provides courses and lectures for study groups through the Connecticut University Committee by staff members of the following institutions: Yale University, Wesleyan University, Trinity College, Hartford Theological Seminary Foundation, Connecticut College for Women, the State board of education professional staff, the Danbury Normal School, New Britain Normal School, New Haven Normal School, and the Willimantic Normal School.

Practically all of the universities and colleges in Massachusetts cooperate with the State department of education in university extension activities, contributing definitely in some way to adult education outside of university and college walls.

The University of Virginia has invited other educational institutions of the State to cooperate in extension work.

The University of Oregon has for some time had cooperative arrangements with other educational institutions in the State, so that a wide range of apparaturities is a state of the state of

that a wide range of opportunities is available.

Many colleges and universities have found it to their advantage to establish extension centers. At each of these centers there is usually a resident faculty. By the addition of local instructors employed on a part-time basis, and by occasional visits of regular faculty members, the educational needs of the center can be supplied. In many localities these centers serve as junior colleges.
